STP Overview

The Seattle Transportation Plan (STP) is our commitment to building a transportation system that provides everyone with access to safe, efficient, and affordable options to reach places and opportunities.

The STP is the vision for the future of transportation in Seattle.

Plan Ambitions

The plan will:

1. **Collectively reimagine our transportation vision**
2. **Plan for people first, connecting them to the places that matter most to them**
3. **Remain grounded in our steadfast values**
4. **Meet the moment with inclusive engagement**

4

Why does Seattle need this plan now?

To address urgent and emerging challenges

To inform future transportation funding

To align with Seattle Comprehensive Plan Update

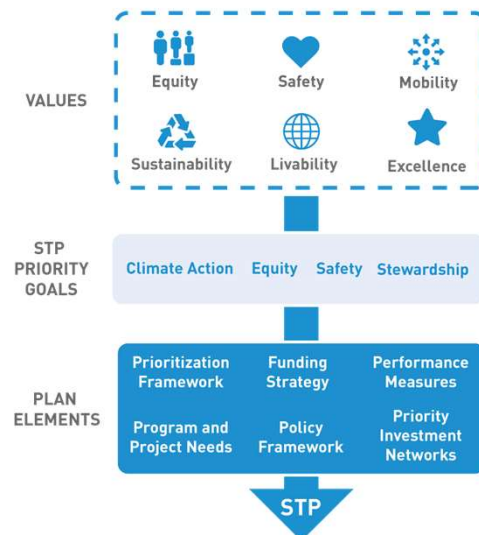

To plan the limited space in our right-of-way (streets, sidewalks, and other public spaces)

5

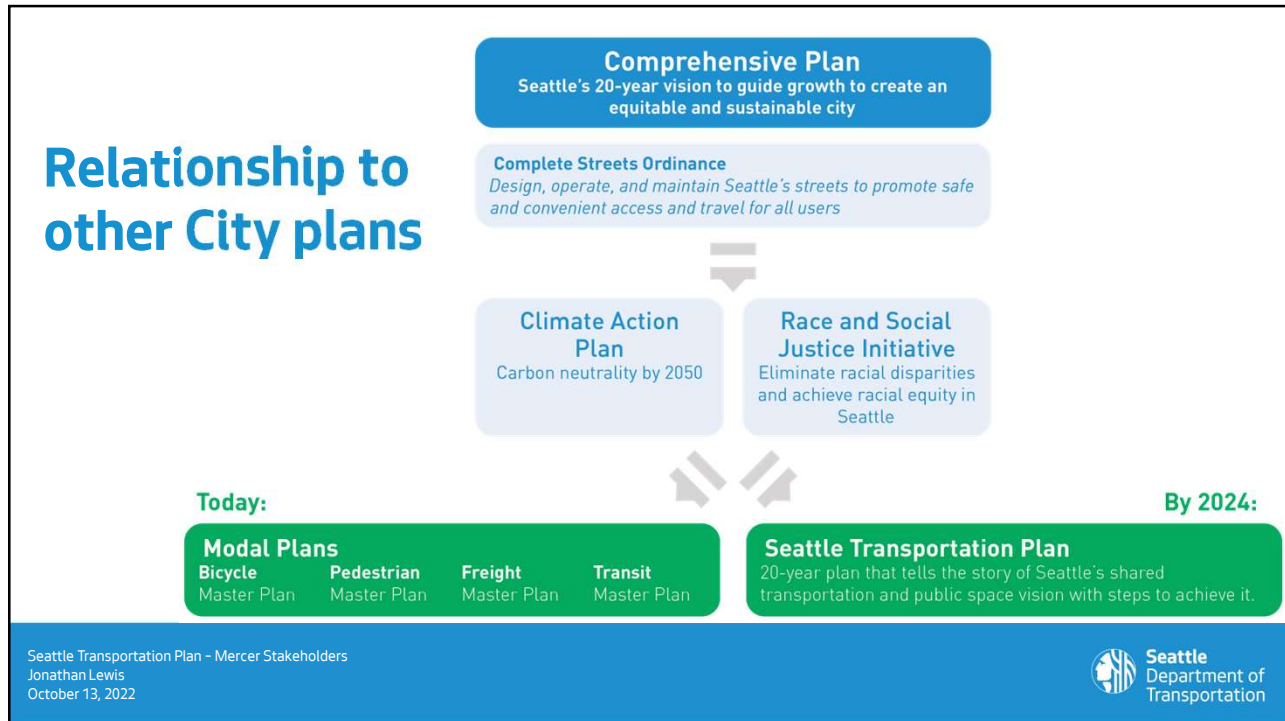

What values drive our transportation vision?

Our organizational Values feed the Goals and the technical elements of the STP.

Community engagement informed the STP Priority Goals and will influence all elements of the STP.

6

7

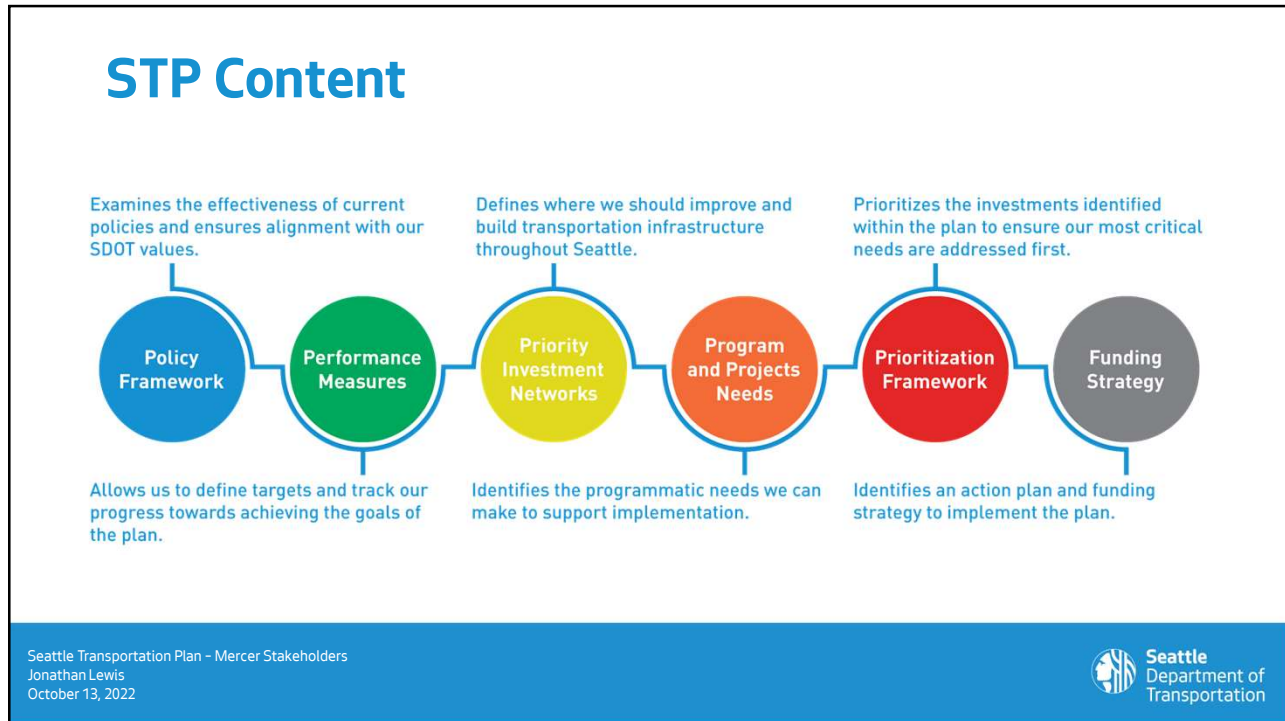

New elements of the STP

- People street and public spaces
- Vehicular element
- Curbside management
- Emerging and new mobility element

Phase 2 engagement

We want to know:

- Do the Seattle Transportation Plan draft vision, goals, and objectives feel right to you?
- What future of transportation in Seattle do you want to see?
- What actions should we take to achieve our goals?
